

Oregon Dunes Restoration Collaborative

Meeting Minutes of Funding/Grants committee – October 21st, 2015

Identified 3 Goals of the Committee:

1. Identify Grant Sources that specialize in Restoration work as a first priority. RAC, Watershed Councils. Stewardship request. Identify Grants that will support NEPA funding.
2. Identify which request will go into two buckets, Operational with boots on the ground efforts and the second one for support needs like hiring communications folks, hiring groups that specialize in grant writing. Grants for tools needed like computers etc.
3. Identify priorities for grant writing. Things like small scale and large scale. Are we going to request bulldozers and excavators and have volunteers use them? Hire qualified fallers of trees? Fire experts.
